

# HOLIDAYS ARE NOT ON SALE €

Sunday and holiday openings in the commerce sector could become a normal event.

Big distribution industries, shop owners, customers, municipalities, are asking always more openings, calling into question rules, laws and labor contracts.

Liberalizing openings is not the recipe to fight against the purchase crisis, and in addition it worsens living and working conditions for employees, mostly women.

**HOLIDAYS BELONG TO EVERYONE**

**REGULATE  
SUNDAY AND HOLIDAY OPENINGS**
